## **Mayes Testing Engineers, Inc. Promotes Jim Lamberth to Senior Project Manager**

Portland, OR – October 8, 2007 - Mayes Testing Engineers, Inc. (MTE) recently promoted inspector, Jim Lamberth, to Senior Project Manager. Mr. Lamberth has 10 years of testing and inspection experience and has been with MTE's Portland office since it opened in 2001. Mr. Lamberth has earned a great reputation in the industry based on his hard work, and dedication. He holds many OBOA licenses and has extensive structural steel experience.

His recent projects include Adventist Medical Center Outpatient Building, Cascade Station Retail Center, Portland Aerial Tram, Coffee Creek Correctional Facility and OHSU Patient Care Facility. In his new role, Mr. Lamberth will provide project management on multiple projects, oversee inspection staff, and supervise on-site inspections.

MTE is a full-service testing and inspection agency. The company has grown from a 15- employee operation when MTE President Michael Mayes first acquired it in 1991, to over 125 employees today. The growing company has made it its business to ensure that the buildings it inspects go up, and stay up. "We inspect all the construction components, from the concrete to the welding to the masonry to the soil," says Mayes.
