Mayes Testing Engineers, Inc. Grows Its Marketing Department

LYNNWOOD, WA – July 27, 2009 - Mayes Testing Engineers, Inc. recently brought on board a new member to join their marketing team to meet the growing demands of its expanding business. With three offices in Seattle, Tacoma and Portland, Mayes Testing Engineers hired Heidi Flickinger, a graduate of the University of Washington, as their new Marketing Coordinator. With a background in marketing presentation and proposal creation, she is a welcome addition to the company.

Mayes Testing Engineers is a full-service testing and inspection agency. The company has grown from a 15-employee operation when President Michael Mayes first acquired it in 1991, to over 100 employees today. The growing company has made it its business to ensure that the buildings it inspects go up, and stay up. "We inspect all the construction components, from the concrete to the welding to the masonry to the soil," says Mayes.
