## **Mayes Testing Engineers, Inc. Moves South to New Headquarters in Lynnwood**

Lynnwood, WA – May 4, 2007 - Mayes Testing Engineers, Inc. (MTE) has moved south to its new headquarters in Lynnwood. Doubling office and laboratory space, the newly constructed 13,000 square foot facility features a state of the art laboratory equipped with a large humidity controlled cure room and 600,000 pound capacity universal test machine.

MTE is a full-service testing and inspection agency currently providing services for Bellevue Towers, Providence Everett Medical Center Expansion and Escala Condominium project in Seattle. MTE has grown from a 15- employee operation when MTE President Michael Mayes first acquired it in 1991, to over 100 employees today. The growing company has made it its business to ensure that the buildings it inspects go up, and stay up. “We inspect all the construction components, from the concrete to the welding to the masonry to the soil,” says Mayes.
